officials use in setting reserve requirements. Another type of transaction involves "mortality catastrophe bonds," in which bond buyers contribute to pots of money that insurers can tap into if large numbers of people die in a disaster.

**Death bonds - New York University**

## Get Free Death Bonds

Death bonds are somewhat similar to catastrophe bonds. The bonds are issued by insurers and pay raucous rates of interest, but the insurer reserves the right to tap the money behind the bonds if more people than expected die. Some of these bonds directly tie your return to the death rates of a pool of the insured.
