challenges differ in size and scope across countries. Increased revenue for the health sector alone will not achieve UHC goals unless well-functioning PFM systems are in place. To leverage PFM reform in the health sector, WHO provides support in the following areas:

Leveraging public financial management for

Get Free Financial Management For Public Health And **better health**

Aligning public financial management (PFM) and health financing. Since public funds are the cornerstone of sustainable financing for UHC in most countries, the public financial management (PFM) system – the institutions, policies and processes that govern the use of public funds – plays a key role. A strong PFM

system can ensure higher and more predictable budget allocations, reduced fragmentation in revenue streams and funding flows, timely budget execution, and better financial ...

Aligning public financial management (PFM) and health ...

Public Health Finance. Sustainability of the governmental public

Get Free Financial Management For Public Health And

health system is dependent principally on the financial health of state and local public health agencies. This is a challenge since public health programs and services are often provided in fiscally strapped environments (e.g., government revenue declines, budget reductions, economic recessions, unfunded mandates).
