Engine Information from John Deere

John Deere Engines are identified by the engine Serial Number Plate. The plate will list the Serial Number, Number of Cylinders, Engine Displacement in Liters or in Cubic Inches, the fuel option, Naturally Aspirated, Turbocharged or Turbo Aftercooled (Intercooled). The plate can also have the country in which the engine was manufactured. There will also be a plate that will list the Engine Option Codes.

John Deere engine identification (page 1 of 3)

John Deere serial numbers are typically 13 characters long. The first two letters indicate which factory the engine was produced in: TO (Dubuque, IA) CD (Sarran, France) PE (Torreon, Mexico) The next four digits are for the engine model, followed by a letter for the emission code.
