Maytag Dependable Care washer - wont pump: It is a good idea to always check the drain hose for kinks, the pump also can get objects caught in it (socks, lint ball, etc), lastly check the pump it self. Sometimes the impeller inside the pump can break free from the shaft and the pump will turn but wont pump the water.

Maytag Washer Common Problems | Appliance Aid

When "LF" is displayed, there could be an issue with the water flowing into the machine. Check the water inlet hoses to be sure they are not clogged or kinked. You may also need to check the screens on the washer water inlet valve. This means shutting off the water supply, and disconnecting the water inlet hoses from the washer.
