Refining Gold (Saltwater) The process for the Simplicity method is simple: Hang your metal on a wire that is connected to a car battery charger and then immerse the metal in saltwater in the Simplicity (or similar) unit. Turn on your battery charger.

Gold and Platinum Refining & Recovery Systems / Equipment

Gold, silver, platinum and palladium can all be recovered from circuits and processors of electronics. Of all the precious metals, gold is the one most frequently recovered and refined from electronics. Although it is possible to melt the gold plating away from the circuitry, you will cause more of a mess and lose some of the precious metal.
