Veritas Cluster Server The ServiceNowDiscovery application uses the Unix Cluster - VERITAS Cluster pattern to find Veritas Cluster Server components. Discovering these resources requires installing the Discovery and Service Mapping Patterns application from the ServiceNow Store.

Veritas Cluster Server - ServiceNow

Introduction This appendix provides basic guidelines for configuring the Veritas Cluster Server (VCS) in a Subscriber Manager cluster installation. It assumes basic knowledge of the VCS environment; it does not replace the VCS user guide. This appendix does not cover installation of the cluster or of the Subscriber Manager cluster agents.
